Notification of closure

Temporary Church Building Closure

After much consideration the Churchwardens and Lay leadership team have taken the decision to close our church buildings for communal worship and other activities with immediate effect, except for the purpose of recording online services.

This is in response to the Tier 4 classification for Leicestershire, and the subsequent national lockdown. Although it is not a mandatory requirement from government, and we are confident we have Covid secure practices in place, we feel the right thing to do now is to support the wider message to stay at home wherever possible. Given the uncertainties of the new strain of coronavirus and the current pressure on our NHS we feel this is the most sensible course of action at this time. We shall review this decision by the end of January.

Worship will continue through January online. Sunday mornings will be an invitation to gather online for worship, and we look forward to some familiar faces appearing as guest speakers in the near future. This will be followed by Zoom coffee and chat. The weekly drop in Parish Prayers led by Wulf will continue on Wednesdays from 7.30 onwards. Toddlers Church will also continue online. Any changes or additions will be notified through the website, via the prayer chain or on Facebook/Twitter and services will be available on Youtube.
